ONEMSI

REPUBLICA DE CHILE
MINISTERIO DEL INTERIOR
OFICINA NACIONAL DE EMERGENCIA
DEPTO. DE COORDINACION Y DIFUSION

# BITACORA
## PARA EL NAVEGANTE DE LA PROTECCION CIVIL
(Direcciones Electrónicas en Internet)

- 1998 -

## PRESENTACION

En el mundo de la globalización y de la convergencia tecnológica, la Oficina Nacional de Emergencia del Ministerio del Interior, ONEMI, ha realizado un importante esfuerzo por ubicar en Internet aquellos sitios de interés, que constituye un valioso apoyo para quienes desarrollan sus actividades en el ámbito de la Protección Civil.

La selección de direcciones electrónicas proporcionarán al Cibernauta de la Protección Civil, orientaciones para ubicar en forma rápida y efectiva las informaciones necesarias para enriquecer el desarrollo de su gestión. Los antecedentes que aquí entregamos, tienen una posibilidad de multiplicación exponencial, debido a que cada sitio indicado mediante su dirección, en muchos casos ofrece links o enlaces con otros lugares relacionados a la materia que se aborda, lo que sin duda, abre nuevas ventanas o accesos a más información.

Las direcciones se han clasificado temáticamente, pero se debe advertir al Navegante que el tratamiento de la información en los sitios web, tienen una ostensiblemente diferencia de complejidad. Así, se podrán hallar atecedentes tratados en forma miscelánea, acompañados de imágenes para ilustrarla, y como contraste, datos técnicos que permitirán al especialista contar con la materia prima para el desarrollo de su gestión estratégica.

La clasificación se ha abordado por instituciones nacionales y mundiales vinculadas a la prevención y atención de desastres, además, de los temas: Protección Civil, Terremotos, Tsunamis o Maremotos, Volcanismo e Hidrometeorología (Sequía e Inundaciones).

ONEMI espera que esta Bitácora para el Navegante de la Protección Civil sea un documento de consulta permanente y un real apoyo a las labores, especialmente, Preventivas.

NACE INTERNATIONAL
